

## Licensed Practical Nurse (LPN) Job Description

---

### Position Summary

The Licensed Practical Nurse (LPN) provides basic nursing care to clients in their homes under the supervision of a Registered Nurse (RN). The LPN ensures that client care plans are followed, supports health monitoring, and promotes the well-being of clients by delivering high-quality, compassionate care.

### Duties and Responsibilities

The LPN is responsible for performing the following tasks:

- Administer medications and treatments as prescribed.
- Monitor vital signs and observe client conditions.
- Provide wound care and catheter care as directed.
- Assist with health assessments and routine screenings.
- Document nursing interventions and client responses.
- Report significant changes in client condition to the RN or physician.
- Educate clients and families about basic health care and wellness practices.
- Supervise and support Personal Care Aides (PCAs) and Certified Nursing Assistants (CNAs) as needed.
- Follow infection control and safety procedures.
- Maintain confidentiality and uphold client rights.

### Qualifications

- Current and valid LPN license in the state of Georgia.
- Graduate of an accredited nursing program.
- Current CPR certification.
- Minimum 1 year of experience in a home health or long-term care setting preferred.
- Strong communication, clinical, and organizational skills.
- Must pass background checks and health screenings.

### Working Conditions

The LPN will work in client homes and must be comfortable working in varying home environments. The position requires physical activity such as lifting, bending, and assisting clients with mobility. Flexible scheduling and local travel may be required.

### Reporting

The LPN reports directly to the Registered Nurse (RN) overseeing client care and to the agency's Nursing Supervisor.
