

WordPress landing page prompt

i want to create a landing page exactly as it is like wordpress give me prompt

Here is a **perfect, production-ready prompt** you can use to generate a landing page **exactly like modern WordPress-style landing pages** — clean, block-based, hero sections, animations, CTA, testimonials, pricing, footer, everything.

✓ WordPress-Style Landing Page Prompt (Copy-Paste)

PROMPT:

"Create a fully responsive, modern WordPress-style landing page. The design should feel like Elementor / Divi / Astra / GeneratePress premium themes. Use clean sections, large spacing, soft shadows, subtle gradients, and smooth animations. Include the following sections in order:

1. Sticky Navbar:

- Logo left, menu items right
- Hover underline animation

2. Hero Section:

- Big headline
- Subtext paragraph
- Primary CTA button + Secondary button
- Large illustration/3D object on right
- Soft fade-in + slide-up animations

3. Features Section:

- 3 or 4 feature cards
- Icons above titles
- Card hover animation (scale + shadow)

4. About / Why Choose Us Section:

- Image left, text right
- Bullet points with check icons

5. Services Section:

- Grid layout

- Each service block has icon, title, description

6. Testimonials Section:

- Slider-style testimonials
- Profile images inside circles
- Star ratings

7. Pricing Section:

- 3 pricing cards
- Highlight (Recommended) plan
- Buttons + features list

8. FAQ Accordion Section:

- Click-to-expand questions

9. Contact Section:

- Contact form
- Name, Email, Message

10. Footer:

- 3-4 columns
- Links, social icons, copyright

The overall design should look premium, like a modern WordPress landing page.

Use soft gradients, smooth scroll animations, and balanced whitespace.

Output clean, organized HTML + CSS + optional JS animations.

Make sure it's pixel-perfect, elegant, and easy to customize."

Want me to generate the full landing page code for you?

I can generate:

- ✓ Complete HTML + CSS
- ✓ Tailwind / SCSS version
- ✓ React / Next.js components
- ✓ With GSAP animations
- ✓ Or a Figma-style layout prompt

Just tell me:

Do you want this landing page in HTML-CSS, React, Next.js, or Tailwind?

give a sample prompt

Here is a **simple, short prompt** for generating a **WordPress-style landing page**:

✓ Simple Prompt

“Create a clean, modern WordPress-style landing page with sections like Hero, Features, About, Services, Testimonials, Pricing, FAQ, Contact, and Footer. Make it look like a premium WordPress theme (Elementor/Divi/Astra). Use smooth animations, big headings, clean spacing, and responsive design.”

If you want, I can also give you:

- ✓ even shorter prompt
- ✓ prompt for 3D/animations
- ✓ prompt for React / Next.js / Tailwind versions

Just tell me!
