COURSEWORK

Data Structures and Algorithms
Object Oriented Programming
Cyber Security

SKILLS

PROGRAMMING

• C • C++ • Java
• JavaScript
Frameworks:
• React • Tailwind CSS
• spring framework • spring boot
• Nextjs • Typescript

App Development:

• React native
• Firebase

Databases:

• MySQL
• MongoDB

Clouds:

• Cloudinary
• Firebase

LANGUAGE

• English
• Hindi
• Bengali (native)

ABOUT ME

I am a dedicated Full Stack and Mobile App Developer with strong expertise in the MERN stack, React Native, and Next.js. I build scalable web applications, high-performance mobile apps, and seamless user experiences across platforms. With a solid foundation in frontend and backend development, I excel at turning ideas into fully functional products—handling everything from UI/UX implementation to API development and system architecture. I'm passionate about clean code, modern technologies, and creating solutions that are fast, intuitive, and impactful. I thrive in collaborative environments and constantly push myself to learn and deliver at a high standard.

WORK EXPERIENCE

● Full-stack Developer

Kyptronix LLP | Sep 2025 – Present

I work as a Full Stack Developer and React Native Mobile App Developer at Kyptronix LLP, contributing to USA-based web and mobile projects. I build scalable, high-performance applications using modern technologies across both frontend and backend. My skills include Next.js, React.js, React Native, Tailwind CSS, Node.js, Express.js, and MongoDB. I collaborate with cross-functional teams to deliver efficient systems and seamless user experiences, focusing on clean, maintainable, production-ready code.

Internship

● Kyptronix LLP | Jun 2025 – sept 2025

worked as a Development Intern at Kyptronix LLP, gained hands-on experience in real-world software projects. I actively collaborate with the team, contribute to live development tasks, follow Agile practices, and deliver work aligned with project deadlines. This role has strengthened my technical skills, teamwork, and professional discipline while preparing me for future full-time opportunities.

PROJECTS

- Experienced in building full-stack web platforms and mobile applications with real-time features and modern UI/UX. Delivered scalable systems across wellness, HR, education, and communication domains. Key projects include:
- RayOne System – Vitamin & Wellness Platform: A next-gen platform enabling entrepreneurs to build and manage online wellness stores with step-by-step guidance, mentorship workflows, and scalable business tools.
- HRMS – Human Resource Management System: A streamlined documentation and workflow platform for managing employee onboarding, compliance forms, reviews, and approval processes with stage-based automation.
- Al-Rasheed Academy – School Management System: A comprehensive school management solution with role-based authentication, public website, enrollment systems, dashboards, forms management, calendar, gallery, and communication tools.
